

Explore Geoheritage Day

Sunday, October 21, 2012
10:00am to 3:00pm

Come join us at your local parks and green spaces to learn how geological processes have shaped the regional landscape, given us a glimpse into past environments and life forms and provided resources for our use. There are even more sites to explore this year, so come out and spend the day with some remarkable rocks, minerals and fossils!

This year's sites include:

Hogs Back Park, Ottawa
Billings Estate National Historic Site, Ottawa
Champlain Bridge Stromatolites, Gatineau
Champlain Lookout, Gatineau Park
Brebeuf Park, Gatineau
Carp Ridge Hike, Kanata
Mer Bleue Bog, Orleans
Cardinal Creek Karst, Orleans
And more...

For more information, directions to the sites,
and link to an interactive map
please visit <http://www.earthsci.carleton.ca>
