Cardinal Creek Community Association

Dear Mr. Crossan,

I wish to express within this letter my complete support for the Cardinal Creek Community Association (CCCA)'s plans to construct a community hall to service their residents.

The CCCA represents one of the most vibrant and rapidly growing communities within Glengarry-Prescott-Russell and the construction of a community center to service its residents would further promote and sustain its growth.

The CCCA, since its beginnings in 2006, has proven its ability to adequately represent its residents and to advocate for improvements which benefit all members of this community. Additionally it has been successful in initiating local events which have effectively built a cohesive sense of community within Cardinal Creek.

The construction of this community hall is the next logical step for this community as it will be able to help further promote the activities and initiatives of the CCCA. The multiple partnerships which will emerge from this project, notably the one with La Cité collégiale, only further the positive impact that its realization will have on the region.

Therefore, it is with unequivocal assurance that I lend my support to this important initiative.

Sincerely,

MPP Grant Crack,
Glengarry-Prescott-Russell
